Objective

I am looking to gain software development experience through internships. No matter the difficulty, I am ready and determined to learn new skills and languages to accomplish my goals.

Education

Bachelor's degree in Computer Science, CSU East Bay
Minor in Mathematics, CSU East Bay
Expected graduation: May 2025

Related Coursework

CS301 - Data Structures & Algorithms
August 22, 2023 to December 10, 2023
CS351 - Website Development
January 16, 2024 to May 4, 2024
CS401 - Software Engineering
January 16, 2024 to May 4, 2024

Experiences

HackHayward - Fullstack Developer
July 26, 2024 to Present
- Implemented responsive design principles and optimized performance for an enhanced user experience.
- Contributed to developing features, debugging, and code reviews to ensure high-quality code standards.

CodeNinjas - Coding Instructor
April 19, 2022 to March 27, 2023
- Guided children aged 7 to 14 in the programming fundamentals of JavaScript, fostering a strong foundation in coding principles.

ANova Hacks - Website Game Developer
March 27, 2021, to April 4, 2021
- Led a team of developers in designing and developing a web-based game focused on raising awareness about COVID-19.
- Prototyped with team members on game concepts and mechanics to develop interactive gameplay and user interfaces.
