Army 25H | CompTIA Security+ | Active Secret Clearance | CCNA in Progress | M.S. Networking Student

Professional Summary

Computer Science graduate and Army Network Communication Systems Specialist (25H) with hands-on experience in network administration, IT support, routers, switches, LAN/WAN connectivity, satellite communications, VPNs, encryption, network diagnostics, and service restoration. CompTIA Security+ certified with an active Secret clearance; pursuing an M.S. in Computer Science with a Networking concentration and preparing for the Cisco CCNA through structured study and extensive Cisco Packet Tracer practice.

Certifications, Clearance, and Professional Development

- CompTIA Security+ - Earned February 2026; valid through February 2029
- Active Secret security clearance
- Cisco Certified Network Associate (CCNA) - In Progress

Technical Skills

Networking: Network administration, IT support, TCP/IP, LAN/WAN, routers, switches, VPNs, DNS, DHCP, routing and switching fundamentals, network diagnostics and troubleshooting

Systems and Tools: System administration, Windows, Linux, Cisco Packet Tracer, VMware, Wireshark

Security: Secure communications, encryption, access control, information assurance, incident response fundamentals

Cloud and Infrastructure Exposure: AWS, Docker

Programming and Development: Python, Bash, Java, C++, JavaScript, React.js, Git, GitHub

Experience

Network Communication Systems Specialist (25H) - Network Administration and IT Support

Army National Guard | Richmond, CA | March 2025 - Present

- Deploy, configure, and maintain routers, switches, and satellite communications equipment supporting secure voice and data networks.
- Provide network administration, system support, and user troubleshooting for LAN/WAN and secure communications services across field and fixed-site environments.
- Diagnose connectivity and equipment faults, isolate service issues, and restore communications during time-sensitive and degraded operating conditions.
- Apply VPN, encryption, access control, and information assurance procedures to safeguard sensitive communications and support reliable operations.

Co-Founder and Front-End Software Lead

FLAZ Labs | Remote | April 2026 - Present

- Lead front-end design, development, testing, and maintenance for responsive web applications, including integration with APIs and back-end services.
- Coordinate feature priorities and implementation with back-end engineers and UI/UX contributors; review code and support release readiness.
- Troubleshoot front-end integration and production UI issues involving authentication, user accounts, and application data.

Full-Stack Web Developer

HackHayward | Hayward, CA | July 2024 - March 2025

- Developed and debugged front-end and back-end features for event registration, live activities, and ranking systems.
- Supported a live hackathon platform through performance improvements and production-focused troubleshooting.
- Collaborated with designers and engineers to translate UI/UX designs into responsive, cross-device interfaces.

Education

Master of Science in Computer Science, Concentration in Networking

California State University, East Bay | Hayward, CA | August 2026 - Expected May 2028

Relevant Coursework: Cloud Computing, Cybersecurity

Bachelor of Science in Computer Science, Minor in Mathematics

California State University, East Bay | Hayward, CA | August 2021 - May 2025

Relevant Coursework: Computer Networks, Operating Systems, Database Systems, Computer Architecture

Selected Technical Projects

Full-Stack Database Web Application | Node.js, Express.js, MongoDB | April 2024

- Built a client/server web application using Node.js, Express.js, and MongoDB.
- Implemented account creation, authentication, user data, database interactions, and cart workflows.

Portfolio Website | React.js, JavaScript, SASS, GSAP | June 2022 - Present

- Designed, developed, deployed, and maintain a responsive React portfolio with interactive GSAP animations.
- Manage source and production builds using Git, GitHub branches, and GitHub Pages.
