Network Systems Specialist | Security+ | Active Secret Clearance | CCNA in Progress

CERTIFICATIONS & CLEARANCE

CompTIA Security+ — Earned February 2026
Active Secret Security Clearance
Cisco CCNA — In Progress

EXPERIENCE

Network Systems Specialist (25H)

March 2025 – Present

Army National Guard

Richmond, CA

- Deployed, configured, and maintained secure network infrastructure, including routers, switches, and satellite com systems.
- Supported LAN/WAN connectivity and diagnosed network faults across distributed environments.
- Applied VPN, encryption, and access-control procedures to protect sensitive communications.
- Monitored network availability and restored communications during time-sensitive, high-demand, and degraded conditions.

Co-Founder & Front-End Software Lead

April 2026 – Present

FLAZ Labs

Remote

- Coordinate front-end integration with backend services, databases, authentication, and application workflows.
- Supported application infrastructure and secure storage of user profiles, payments, and activity data.
- Troubleshoot integration and connectivity issues during deployment and production maintenance.

Full-Stack Web Developer

July 2024 – March 2025

HackHayward

Hayward, CA

- Developed responsive features supporting event registration, live activities, and ranking systems.
- Diagnosed front-end and back-end defects affecting event workflows.
- Collaborated with designers and engineers to translate UI/UX designs into cross-device interfaces.

TECHNICAL PROJECTS

Home Server & LAN File Services | *Network Administration, System Administration, Access Control*

Aug 2026 – Present

- Built a home server that provides LAN-only file services to authorized household devices across wireless connections.
- Configuring network shares, user permissions, storage organization, and access controls
- Troubleshooting client connectivity, permissions, file-transfer performance, and service availability.

Database Web Application | *Node.js, Express.js, MongoDB*

April 2024

- Built backend services using Node.js and Express.js.
- Designed and managed database interactions using MongoDB.
- Implemented dynamic features including account creation and cart functionality.

Portfolio Website | *React.js, Javascript*

June 2022 – Present

- Built a responsive web application using React.js, JavaScript, HTML, CSS, and SASS.
- Implemented front-end animations and interactive elements using GSAP.
- Designed UI/UX workflow and deployed the website via GitHub Pages.

EDUCATION

California State University, East Bay

Hayward, CA

Master of Science in Computer Science, Concentration in Networking

August 2026 – Expected May 2028

California State University, East Bay

Hayward, CA

Bachelor of Science in Computer Science, Minor in Mathematics

August 2021 – May 2025

TECHNICAL SKILLS

Networking: TCP/IP, LAN/WAN, DNS, DHCP, VPNs, routing and switching fundamentals, network troubleshooting

Systems & Tools: Linux, Windows, VMware, Wireshark, Cisco Packet Tracer

Security: Secure communications, encryption, access control, incident response

Cloud & Infrastructure Exposure: AWS, Docker

Programming: Python, Bash, Java, C++, JavaScript, React.js
